This publication is protected by copyright under the Commonwealth of Australia Copyright Act 1968.

NATA's accredited facilities or facilities seeking accreditation may use or copy this publication or print or email this publication internally for accreditation purposes.

Individuals may store a copy of this publication for private non-commercial use or copy a reasonable portion of this publication in accordance with the fair dealing provisions in Part III Division 3 of the Copyright Act 1968.

You must include this copyright notice in its complete form if you make a copy of this publication.

Apart from these permitted uses, you must not modify, copy, reproduce, republish, frame, upload to a third party, store in a retrieval system, post, transmit or distribute this content in any way or any form or by any means without express written authority from NATA.

In addition to the ISO/IEC 17025 Standard Application Document (SAD), this index identifies the applicable Specific Accreditation Criteria (Annexes), Specific Guidance Documents and Specific Forms relevant to the Services defined in the Scope of Accreditation.

Service (as described in the Scope of Accreditation)	Document Type	Document Title
Analysis for chemical composition of gas and aerosols	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of agricultural products and treatment materials	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of biofuels, hydrocarbon fuels and related fuel products	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of bituminous materials	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of cements and cementitious materials	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Cement Testing (17025)
Analysis of coals, coke, charcoal and related products	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of fats, oils and waxes	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of lubricants, oils and related products	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General

Service (as described in the Scope of Accreditation)	Document Type	Document Title
Analysis of metals and alloys	Specific Accreditation Criteria Specific Accreditation Guidance	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General Materials - Guidance for Characterisation of Metallic Items by X-Ray Fluorescence and Atomic Emission
Analysis of ores and minerals	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Analysis of solvents	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Chemical analysis of explosives and related materials	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Chemical analysis of polymers and related materials	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Chemical analysis of reagents, salts and related compounds	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Material performance evaluation of refractories, ceramics and related materials	N/A	N/A
Metallic corrosion evaluation	N/A	N/A
Metallographic evaluation of metals and alloys	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Metallographic Testing (17025)
Sample collection	Specific Accreditation Criteria	Materials ISO/IEC 17025 Annex - Characterisation of Industrial Materials - General
Safety evaluation for transport of bulk materials	N/A	N/A

Service (as described in the Scope of Accreditation)	Document Type	Document Title
Performance testing of explosives, ordnance and related products	N/A	N/A

Amendment Table

The table below provides a summary of changes made to the document with this issue.

Amendment
New document.
