NATA's accredited facilities or facilities seeking accreditation may use or copy this publication or print or email this publication internally for accreditation purposes.

Individuals may store a copy of this publication for private non-commercial use or copy a reasonable portion of this publication in accordance with the fair dealing provisions in Part III Division 3 of the Copyright Act 1968.

You must include this copyright notice in its complete form if you make a copy of this publication.

Apart from these permitted uses, you must not modify, copy, reproduce, republish, frame, upload to a third party, store in a retrieval system, post, transmit or distribute this content in any way or any form or by any means without express written authority from NATA.

This document lists the descriptors for services currently able to be accredited under the activity of *Infrastructure and Asset Integrity*.

Scopes of accreditation will reference ISO/IEC 17025, identify Infrastructure and Asset Integrity as the activity, the applicable services, the products tested, the determinations, the techniques used, the procedures adopted and any applicable range/limitation.

For non-destructive testing (NDT), the scopes of accreditation will only reference ISO/IEC 17025, identify Infrastructure and Asset Integrity as the activity the applicable services, the products tested, the determinations and the techniques used.

The listing of services will be updated as new ones are accredited.

Services		
Acoustic emission monitoring of metallic and composite materials		
Establishment of annex facilities		
Evaluation of air control equipment		
Evaluation of building air distribution, balancing and pressurisation		
Evaluation of environmental durability of assets and equipment		
Evaluation of geometric properties of str	uctures and equipment	
Evaluation of geotechnical and civil construction material	Aggregate abrasion	
	Aggregate binder adhesion	
	Aggregate chemical tests	
	Aggregate contaminants	
	Aggregate petrographic examination	
	Aggregate polishing	
	Aggregate properties	
	Aggregate reactivity	
	Aggregate reflectance	
	Aggregate soundness	
	Aggregate stabilisation	
	Aggregate strength	
	Asphalt adhesion and stripping	
	Asphalt extraction and grading

Services	
Evaluation of geotechnical and civil	Apply the field store it.
construction material	Asphalt field density
	Asphalt filler
	Asphalt mechanical properties
	Asphalt mix design
	Asphalt performance
	Asphalt specimen manufacture
	Asphalt volumetric properties
	Concrete petrographic examination
	Concrete, grout and mortar chemical tests
	Concrete, grout and mortar consistence in-situ
	Concrete, grout and mortar deformation
	Concrete, grout and mortar performance
	Concrete grout and mortar permeability
	Concrete, grout and mortar properties
	Concrete, grout and mortar properties chemical tests
	Concrete, grout and mortar properties permeability
	Concrete, grout and mortar shrinkage
	Concrete, grout and mortar specimen manufacture and curing
	Masonry, concrete and clay unit properties
	Pavement shape
	Road pavement profile
	Road pavement structural performance
	Road pavement surface characteristics
	Rock hardness
	Rock petrography
	Rock properties
	Rock strength and deformation
	Soil chemical properties
	Soil classification

May 2025 Page 4 of 7 [PUBLIC]

Services		
	Soil compaction characteristics	
Evaluation of geotechnical and civil construction material	Soil consolidation	
	Soil dispersion	
	Soil electrical properties	
	Soil engineering properties	
	Soil field density	
	Soil fine particles	
	Soil in-situ penetration	
	Soil in-situ strength	
	Soil laboratory bearing properties	
	Soil modulus and deformation	
	Soil natural contaminants	
	Soil permeability	
	Soil pre-treatment	
	Soil reactivity	
	Soil sample preparation	
	Soil shear strength	
	Soil stabilisation	
	Soil thermal properties	
	Soil triaxial strength	
Evaluation of high voltage/power	Energy efficiency classification	
equipment and components	Performance	
Evaluation of load generating lifting appli	Evaluation of load generating lifting appliances	
Evaluation of load handling, rigging and tensioning systems		
Evaluation of mechanical performance of pedestrian and impact attenuation surfaces		
Evaluation of mechanical performance o	f high pressure oil and gas pipelines	
Evaluation of mechanical performance of low pressure oil and gas pipelines		
Evaluation of mechanical performance of pressure equipment		
Evaluation of mechanical performance of pumps and pump sets		
Evaluation of mechanical performance of water and sewer pipelines		

 May 2025

 [PUBLIC]

Services		
Leak evaluation of welds		
Measurement of sound levels in workplaces and the environment		
Non-destructive testing (NDT)	Acoustic emission testing	
	Dimensional testing	
	Electromagnetic testing	
	Electromagnetic testing - Specialised - ACFM	
	Electromagnetic testing - Specialised - Eddy current array	
	Electromagnetic testing - Specialised - Magnetic flux leakage (MFL)	
	Electromagnetic testing - Specialised - Rotational eddy current	
	Laser profilometry	
	Magnetic particle testing	
	Microwave interferometry	
	Penetrant testing	
	Radiographic testing	
	Radiographic testing - Interpretation	
	Radiographic testing - Specialised - Computed radiography	
	Radiographic testing - Specialised - Computed tomography	
	Radiographic testing - Specialised - Digital radiography	
	Thermographic testing	
	Ultrasonic testing	
	Ultrasonic testing - Pulse velocity	
	Ultrasonic testing - Specialised - Guided wave (long range)	
	Ultrasonic testing - Specialised - Internal rotary (IRIS)	
	Ultrasonic testing - Specialised - Phased array (PAUT)	
	Ultrasonic testing - Specialised - Time of flight diffraction (ToFD)	
	Visual testing - During service life	
	Visual testing - Prior to initial service	

May 2025 Page 6 of 7 [PUBLIC]

Services		
Sample collection		
Thermographic analysis of infrastructure and equipment		
Vibration analysis	Equipment condition monitoring	
	Machine balance quality	
	Vibration levels in workplaces and the environment	
	Vibrational behaviour of structures	

Amendment Table

The table below provides a summary of changes made to the document with this issue.

Amendment

Service descriptors added:

Evaluation of geotechnical and civil construction material - Rock properties

Evaluation of geotechnical and civil construction material - Soil engineering properties
