NATA Learning Portal

The NATA Learning Portal is an online platform designed to specifically support your learning needs. The Portal contains:

- Course materials
- Case studies
- Trainer chat function
- Access to the relevant Standard
- Videos to support your training
- Course Feedback form

NATA VIRTUAL LEARNING COURSE CALENDAR

1. Understanding ISO/IEC 17025 – 1 Day – Members \$671*, Non-Members \$737*

August	September	October	November	December
3, 12, 27	22	20	19	8

This course has been designed to meet current industry expectations to understand and implement ISO/IEC 17025:2017 General requirements for the competence of testing and calibration laboratories. The course examines the purpose and application of these requirements to assist Learners in contributing to the implementation of the requirements in their laboratory.

2. Internal Audits – 2 Days – Members \$1,210*, Non-Members \$1,353*

August	September	October	November	December
4-5, 11-12, 25-26	30-1		11-12	2-3

All quality management systems include the requirement for an effective internal audit function. This function ensures the management system is being implemented as intended, that the facility is managing its risks, and is an important tool for identifying continuous improvement processes and development opportunities for staff.

This course is based on the principles contained within ISO 19011 Guidelines for quality and/or environmental management systems auditing and hence applies equally to ISO 9001, ISO14001, ISO/IEC 17025 and ISO 15189.

3. Quality Management in the Laboratory – 3 Days – Members \$1,815* Non-Members \$2,035*

August	September	October	November	December
4-6, 11-13, 25-27	22-24	20-22	10-12	1-3

The Quality Management in the Laboratory course is designed to provide participants with a strong understanding of the elements required for good practice in a laboratory.

This course is aimed at laboratory management and staff involved in the implementation, maintenance and improvement of the laboratory's management system. It is suitable for all levels of staff and is designed to provide an in-depth understanding of the laboratory's management system, including the technical requirements.

"For a virtual training experience, it was engaging due to the different learning tools available combined with very effective, interactive and engaging content"

Understanding ISO/IEC 17025 - 2020

NEW NATA VIRTUAL LEARNING COURSE CALENDAR

1. Understanding ISO 15189 - Accreditation Requirements for Medical Laboratories – 1 Day – Members \$671*, Non-Members \$737*

August	September	October	November	December
		22		

ISO 15189 is an international quality management system standard designed specifically for medical laboratories. It outlines the controls required to manage risks that may have an impact on the validity of examination results, and tools to help the laboratory to improve its operations and customer satisfaction. ISO 15189's requirements are designed to apply to all types of human pathology testing and therefore often need to be interpreted with respect to the type of testing concerned, and the techniques involved.

2. OECD Principles of Good Laboratory Practice – 1 Day – Members \$730* Non-Members \$800*

August	September	October	November	December
	10			3

OECD Principles of Good Laboratory Practice course will provide you with an overview of how to manage and conduct non-clinical environmental health and safety studies in order to comply with the OECD Principals of Good Laboratory Practice.

This course is also designed to equip you with a basic understanding of the OECD principles that will allow you to deal with the challenges of implementing a system or evaluating an existing one to support studies . This would also assist to refresh your understanding of the OECD principals when submitting data to regulators both in Australia and overseas.

3. Supervisors and Managers for the Laboratory – 2 Days – Members \$1,210* Non-Members \$1,353*

August	September	October	November	December
	16-17		16-17	

Supervisors and Managers for the Laboratory workshop will equip you with the skills, knowledge and practical tips to be an effective, efficient supervisor. This course will also provide you with the tools and strategies that will allow you to deal with the challenges of being a leader.

“Everybody in the group was involved in the discussions, and clear and practical explanations were provided by the facilitator, which made it a positive learning experience overall.
