NATA's accredited facilities or facilities seeking accreditation may use or copy this publication or print or email this publication internally for accreditation purposes.

Individuals may store a copy of this publication for private non-commercial use or copy a reasonable portion of this publication in accordance with the fair dealing provisions in Part III Division 3 of the Copyright Act 1968.

You must include this copyright notice in its complete form if you make a copy of this publication.

Apart from these permitted uses, you must not modify, copy, reproduce, republish, frame, upload to a third party, store in a retrieval system, post, transmit or distribute this content in any way or any form or by any means without express written authority from NATA.

This document lists the descriptors for services currently able to be accredited for testing in support of research and development.

In addition to referencing ISO/IEC 17025, the activity type(s) that reflect the relevant industry groupings (e.g. agribusiness, environment, food & beverage, etc.) and the applicable services listed below, scopes of accreditation will include the material/item/product tested, the determination, the technique used and the procedure adopted.

The list below will be updated as new services are accredited.

<b>Services</b>
Analysis in support of clinical trials and/or pre-clinical studies
Analysis in support of the development and/or optimisation of new assays, devices or techniques
Analysis in support of research
Activities in support of research

## **Amendment Table**
