

Fee Schedule

July 2022 to June 2023

Offshore Facilities

Off-shore facilities are not subject to Australian Goods and Services Tax (GST)

Application Fee

Chargeable per site per Program (Standard) \$2,558.40

An Application Fee is applicable to begin the accreditation process and is not refundable. If an initial assessment has not been conducted within twelve months of the application date and the delay has been caused primarily by the applicant, an additional application fee will be charged. If the application is still pending after two years of the application date, the application will lapse.

Annual Fees – Administration + Membership Fee

Administration Fee per site \$1,945.36

The Administration Fee covers the cost of maintaining NATA as an organisation capable of providing accreditation and related services.

The Membership Fee represents the annualised cost of the estimated assessment effort for an accredited site over its accreditation cycle. The effort is defined as the time necessary to assess the quality management system and sample the scope of accreditation at assessment. It is levied to recover the costs from all members on a fair and equitable basis. A site is defined as a physical location which holds accreditation and an accredited facility (i.e. a NATA member) may have more than one site accredited.

Annual Fees are charged from the date of accreditation being granted and cover the cost of routine assessment activities. Usually, this is an all-inclusive fee. However, if a facility refuses to accept suitable and available technical assessors, all additional costs of travel, accommodation and other expenses are passed on to the facility.

Discounts for linked accreditations may apply for facilities with more than one site on the same location, with the same Authorised Representative and company name.

Fee for Service
