

## Background Memo

<b>Document:</b>	Remote work locations
<b>Date:</b>	May 2023
<b>Key changes:</b>	This is a new Annex which details the type of testing that may be conducted remotely and the procedures for establishment, notification and assessment of such testing.
<b>Background:</b>	
This Annex formalises and clarifies the requirements for sampling, specimen conditioning and testing away from the accredited base Materials laboratory. It applies to field testing, laboratory testing at fixed remote work sites and laboratory testing at mobile sites. It covers eligibility, establishment, assessment and operation of remote testing sites.	
<b>Sector Manager:</b>	Mr Michael Fraser, Deputy Sector Manager, Materials, Assets & Products - <a href="mailto:michael.fraser@nata.com.au">michael.fraser@nata.com.au</a>
