

Background Memo

Document:	<i>Specific Accreditation Criteria: ISO/IEC 17025 Application Document, Manufactured Goods - Annex, Electrical appliance performance testing</i>
Date:	February 2025
Key changes:	<p>NATA has reviewed this document in consultation with the Electrotechnology Testing Accreditation Advisory Committee.</p> <p>There are new requirements for calibrations & checking of IP access probes.</p> <p>References to external standards have been updated appropriately.</p>
Background:	
<ul style="list-style-type: none">▪ Revision of existing criteria ensures our requirements are clear and unambiguous.▪ Measurements obtained using IP access probes are critical to the final test result, and therefore require calibration as per the NATA <i>General Accreditation Criteria: Metrological Traceability Policy</i>.▪ Stakeholders in the electrotechnology sector expect NATA to ensure that applicant and accredited facilities fulfil accreditation criteria that underpins consumer safety and facilitates trade, domestically and internationally.
