This publication is protected by copyright under the Commonwealth of Australia Copyright Act 1968.

NATA's accredited facilities or facilities seeking accreditation may use or copy this publication or print or email this publication internally for accreditation purposes.

Individuals may store a copy of this publication for private non-commercial use or copy a reasonable portion of this publication in accordance with the fair dealing provisions in Part III Division 3 of the Copyright Act 1968.

You must include this copyright notice in its complete form if you make a copy of this publication.

Apart from these permitted uses, you must not modify, copy, reproduce, republish, frame, upload to a third party, store in a retrieval system, post, transmit or distribute this content in any way or any form or by any means without express written authority from NATA.

This document lists the descriptors for services currently able to be accredited for Biobanking.

In addition to referencing ISO/IEC 20387, and the applicable services listed below, scopes of accreditation will include the material/item/product tested, the determination and the technique used.

Scopes of accreditation will also include the procedure adopted however, this information will not be made public and is only available to the accredited facility.

The list below will be updated as new services are accredited.

Services
Pre-storage acquisition of biological material and associated data
Post-storage distribution of biological material and associated data
Pre-storage preparation, characterisation and preservation of biological material and associated data
Storage of biological material and associated data
Post storage annotation, characterisation and analysis of biological material and associated data
